8549931775 | rufaiaman7790@gmail.com | github.com/Rufi-1 | linkedin.com/in/rufaiaman-6a7bba319 | Mysuru, Karnataka

CAREER OBJECTIVE

Motivated Bachelor of Computer Applications graduate with a strong foundation in Python, SQL, data analytics, and web development. Hands-on experience in data cleaning, statistical analysis, and anomaly detection through a Data Analytics internship, complemented by independent experience building AI-powered applications with REST API integrations and Django backend development. Eager to contribute as a fresher in data analytics or software development while continuing to build expertise in modern tools and frameworks.

EDUCATION

Bachelor of Computer Applications (BCA) Maharani's Science College for Women, Mysuru CGPA: 8.73	2026
Pre-University Course (PCMB) Farooqia Girls Composite College Percentage: 84.12%	2023
SSLC Little Gems School Percentage: 84.32%	2021

TECHNICAL SKILLS

Programming Languages	Python (Advanced), C, JavaScript
Web Development	HTML, CSS, JavaScript, Django (REST APIs)
Database	SQL, DBMS
Data Analysis & Visualization	Pandas, NumPy, Matplotlib, Seaborn, Excel (Pivot Tables, ToolPak)
Statistics	Descriptive & Inferential Stats (t-Test, ANOVA, Chi-Square, IQR, Correlation)
Tools & Platforms	Git, GitHub, Streamlit, Google AI Studio, VS Code
Core Competencies	Data Cleaning, Root-Cause Analysis, API Integration, Documentation

SOFT SKILLS

Problem Solving • Analytical Thinking • Communication • Team Collaboration • Quick Learner • Adaptability • Time Management

INTERNSHIP EXPERIENCE

Data Analytics Intern – Spatialhawk Geo-Informatics Pvt. Ltd., Mysuru	May – Jul 2026
--	----------------

Responsibilities

- Cleaned and standardized structured datasets using Python (Pandas) – handled missing values and removed duplicates.
- Detected data anomalies using boxplots and the IQR method, documenting root causes for reliability.
- Wrote SQL queries and built Pivot Tables/Excel reports for descriptive statistics and stakeholder reporting.

PROJECTS

1. Indian AI Dietician

Tools & Technologies: Python, Streamlit, Groq API, Whisper, gTTS, Google Translate API, bcrypt

Problem Statement: Designed a multilingual, voice-enabled diet app for Indian users, addressing the lack of ICMR/NIN-aligned regional-language tools.

Solution

- Generated ICMR/NIN-aligned diet plans in 5 languages via Whisper & gTTS, using prompt engineering with Groq-hosted Llama 3.3.
- Implemented secure bcrypt authentication and persistent JSON-based user history tracking.

2. MediLingo – Healthcare Language Assistant

Tools & Technologies: Python, SQL, Gemini API

Problem Statement: Medical terminology can often be difficult for patients to understand, creating communication gaps.

Solution

- Simplified complex medical terminology into plain language using the Gemini API.
- Delivered explanations in English and Hindi, written and audio, to improve patient accessibility.

3. Data Analytics Studio

Tools & Technologies: Python, Pandas, NumPy, Matplotlib, Seaborn, SciPy

Problem Statement: Built a dataset-agnostic tool that adapts its full statistical pipeline to any uploaded file.

Solution

- Built correlation/covariance analysis and inferential tests (Shapiro-Wilk, t-tests, ANOVA, chi-square).
- Designed a dataset-agnostic architecture that adapts the analysis pipeline to any uploaded file.

CERTIFICATIONS

- Google AI Studio: Building & Deploying Apps – GUVI & HCL (2026)
- Basic Computer Course – STP Computer Education (2024)

CURRENTLY LEARNING

- React (Frontend)
- Power BI & Advanced SQL
- Machine Learning & GenAI (Qspiders)

ACHIEVEMENTS & PARTICIPATION

- Participant – India AI Impact Buildathon 2026
- Participant – AI for Bharat Hackathon
- Built 3 independent AI/data applications

EXTRA-CURRICULAR ACTIVITIES

- Participated in AI & data workshops and hackathons
- Explored emerging data & web dev tools
- Self-learning in Data Science & Full-Stack Development
